

I am thoroughly  
disgusted that  
Sinclair  
Broadcasting has  
decided to air an  
anti-Kerry film so  
close to the  
election. Even  
worse, they are  
forcing their local  
affiliates to go  
along with this  
totally unethical,  
and hopefully  
illegal, decision.  
This situation is a  
clear demonstration  
of the dangers of  
allowing a few  
individuals or  
companies to control  
so many media  
outlets.

I thought that free  
use of the public  
airwaves required  
behaving in the  
public interest.  
Clearly, using  
public airwaves to  
try to affect the  
outcome of a  
presidential  
election does not  
qualify. This is  
another perfect  
example of why media  
ownership rules need  
to be strengthened,  
not relaxed.
